Strategy #		Outreach and Employee Education <i>Minimum # of Measures Needed for CLEAN Business Recognition = 3</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
1	Employee Awareness	Assign a "Green Team" or leader to be responsible for implementing green initiatives for the business	1			
2		Host in-office educational sessions to inform staff of the company's participation in the Clean Business Program and help them "go green" in the office and at home.	1			
3		Distribute educational material to employees about environmental issues such as pollution prevention, conservation, household hazardous waste, and waste reduction.	1			
4		Celebrate Earth Day or have a "Green Week" during the year that provides ways for employees to engage in green related activities.	1			
5	Green Purchasing	Implement policies that include green/sustainable purchasing that are communicated on your website and/or employee manual.	1			
6		If the business has a green/sustainable purchasing policy, include a provision that requires the purchase of EPA ENERGY STAR and Water Sense appliances and recycled content and PCF-free products (e.g., paper, business cards, folders, etc.) that contain at least 30% recycled content.	3			
7	Program Participation	Refer other businesses to the Clean Business Program. Referrals must be submitted and registered. (Up to 10 points possible)	1 per Business			
8	Other	Create your own: _____	TBD			

Strategy #		Pollution Prevention & Storm Water Management <i>Minimum # of Measures Needed for CLEAN Business Recognition = 10</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
9	Storm Drain Protection	Inspect and clean storm drains within your property annually before the rainy season (October - April).	1			
10		If applicable, keep a spill kit on hand that includes dry absorbent material and storm drain protection devices and train employees on the use of spill kits.	2			
11		Stencil storm drains with "No dumping, drains to San Diego Bay..." message.	2			
12		Post a sign around the sink area for employees that reads: "Please do not dump hazardous chemicals down sink, sewer, or storm drain!"	1			
13	Good Housekeeping Practices	Post signs at dumpster to remind employees to keep the lid closed.	1			
14		Post signs at all trash cans reminding employees to avoid placing liquids in trash and the dumpster.	1			
15		Routinely clean dumpster area, preferably using dry cleaning methods. If power washing, collect the wash water and dispose of it properly, not allowing it to enter storm drains.	1			
16		Regularly clean/sweep litter from the outdoor areas of the facility, including cigarette butts. Provide adequate ashtrays to prevent cigarette litter, if necessary.	1			
17		If applicable, routinely check company vehicles for leaks and staining on pavement and repair any leaking vehicles immediately.	2			
18		Store deliveries, supplies, and outdoor equipment under a roof.	1			
19		If applicable, install containment or berms around outdoor liquid storage and transfer areas to capture spills.	2			
20	Integrated Pest Management & Using Less Toxic Chemicals	Eliminate the use of chemical pesticides by correcting situations that attract or harbor pests.	2			
21		Purchase hazardous products, such as cleaners, in the smallest quantities possible.	1			
22		Require in janitorial contracts that safer, less toxic janitorial products are used to clean your facility, such as products that meet Green Seal standards.	2			
23		Use no or low VOC cleaning and maintenance products (such as paints, solvents, and strippers).	2			

Strategy #		Pollution Prevention & Storm Water Management <i>Minimum # of Measures Needed for CLEAN Business Recognition = 10</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
24	Recycling & Hazardous Waste	Recycle batteries and cell phones via an in-office battery/cell phone recycling program, or drop them off at a location that will recycle them.	2			
25		Recycle electronic equipment (such as computers, monitors, and televisions).	2			
26		Buy recycled content paint when doing remodels/touch-ups.	2			
27		Properly dispose of (recycle) unused paint by having it picked up by a licensed hazardous waste disposal company.	2			
28		Use left-over paint as a primer, or for painting door interiors and edging/jamming.	1			
29		Replace mercury-containing devices such as thermometers, thermostats, and gauges with non-mercury containing devices; dispose of mercury-containing devices properly.	2			
30	Air & Water Quality Protection	Offer subsidized or free public transit passes to employees.	3			
31		Provide proper bicycling resources: bike racks, locker rooms, and/or showers.	4			
32		Integrate alternative fuel vehicles or hybrids into the company fleet. (Up to 50 points possible)	5 per Vehicle			
33		Communicate local air quality index alerts to employees (such as extreme heat & wildfires).	1			
34		Install a "cool" roof (lowers sun radiation on building and lowers outside air temperature).	5			
35		Install "cool" or permeable pavement (manages runoff, controls pollutants, promotes healthy growth of urban trees).	5			
36		Plant shade trees near buildings and hardscapes (sidewalk and pavement).	1			
37		Use landscaping or barriers to prevent soil erosion especially during construction or remodeling activities.	2			
38	Other	Use rechargeable appliances, such as small vacuums or flashlights, instead of using disposable batteries.	1			
39		Use Forest Stewardship Council-certified and rapidly-renewable wood products (such as paper, furniture, and building materials).	3			
40		Create your own: _____	TBD			

Strategy #		Energy Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
41	General	Call (619) 409-3893 to schedule a free City-sponsored energy evaluation of your facility.	1			
42		Learn how to read your bill or sign up for the online Energy Waves tool to better track energy usage. (visit https://energywave.sdge.com for more information)	1			
43	Lighting	Clean lighting fixtures and lamps monthly, so that they are lighting as effectively as possible.	1			
44		Install dimmable ballasts and photocells to automatically dim lights when daylight is available.	2			
45		Install occupancy sensors for lighting in low occupancy areas such as stairwells, copy rooms, restrooms, and storerooms.	2			
46		Rearrange workspace to take advantage of natural sunlight.	1			
47		Replace all incandescent bulbs with compact fluorescent lamps.	2			
48		Replace all incandescent bulbs with LED lighting.	3			
49		Install LEDs for refrigerator case lighting.	2			
50		Retrofit exit signs with LEDs or fluorescent bulbs.	2			
51		Turn off lights and remove extra lamps where possible.	1			
52		Upgrade existing fluorescent lighting with more energy efficient (T-5 or T-8) fluorescent lamps with electronic ballasts.	2			
53		Use light switch reminders to remind guests and staff to turn off lights.	1			
54		Use "task lighting" to directly illuminate a work area and where extra light is needed rather than light an entire area.	1			
55		Schedule routine janitorial services during the day instead of at night to save lighting energy.	1			

Strategy #		Energy Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
56	Heating & Cooling	Install and use computer software programs that save energy by automatically turning off idle computer monitors and printers.	2			
57		Plug all office equipment into a "smart" power strip equipped with a timer or occupancy sensor that will turn off the equipment when not in use or after working hours.	1			
58		Use an ink jet printer instead of a laser printer - they use 90% less energy.	2			
59		Use electronic equipment with energy saving features (such as ENERGY STAR-qualified models for copiers, printers and computers.)	2			
60		Use laptop computers instead of desktop computers - they consume 90% less energy.	2			
61		Install a programmable thermostat to control heating and air conditioning.	2			
62		Set & lock thermostat to 78° F maximum for cooling and 68° F maximum for heating. Also, use the thermostat's night setback.	1			
63		Install economizers and variable frequency drives (VFDs) on an existing AC system to increase efficiency.	3			
64		Perform regularly scheduled maintenance on your HVAC system - check entire system annually for leaks and obstructions and clean filters and condenser coils quarterly.	1			
65		Provide shading for outdoor HVAC condenser(s).	1			
66		Replace or supplement an existing AC system with an evaporative cooler, or a unit with a greater SEER rating.	4			
67		Install and use ceiling fans instead of air conditioning when possible.	2			
68		Use an energy management software system to control lighting and HVAC systems.	2			
69		Install window film or blinds to reduce heat gain.	1			
70		Use small fans and heaters during off hours instead of heating or cooling the entire space.	1			
71	Other	Enroll in one of the utility's demand response programs such as Summer Saver.	1			
72		Insulate hot water heaters and all exposed hot water pipes.	1			

Strategy #		Energy Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
73	Other (Cont)	Use weather stripping to close air gaps around doors and windows.	1			
74		Install solar photovoltaic or solar hot water systems to meet part of your business's energy demands. (Up to 50 points possible)	5 per KW			
75		Create your own: _____	TBD			
Strategy #		Water Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 6</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
76	General	Learn how to read your water meter and/or bill as a way to track water use better.	1			
77		Regularly check for and repair all leaks in your facility.	1			
78	Landscape	Group plants with similar water requirements together on the same irrigation line.	1			
79		Install a water efficient irrigation system using a drip system and weather-based irrigation controllers.	3			
80		Replace turf grass areas with drought resistant native and California-friendly species.	4			
81		Replace turf grass with artificial turf.	5			
82		Use ground cover or a minimum of 4-inch depth mulch around landscape to prevent water evaporation.	2			
83		Irrigate during early morning hours (midnight - 5AM) to decrease water loss from evaporation.	1			
84		Use dry surface cleaning methods, followed by damp mopping or wiping instead of hosing down outdoor areas, or implement a pressurized water broom and manage runoff properly.	1			
85		Repair all broken or defective sprinkler heads/nozzles, lines, valves; or notify landscape contractor or facility manager.	2			
86	Restrooms	Install water efficient aerators on lavatory and kitchen sink faucets (1.5 gpm or lower).	1			
87		Install high efficiency toilets (1.28 gpf or dual flush).	3			

Strategy #		Water Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 6</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
88	Restrooms (Cont)	Install ultra low (<1 gpf) or zero water urinals.	3			
89		Install signs in restrooms encouraging water conservation.	1			
90		Replace free flowing faucets in restrooms with automatic shut-off faucets.	2			
91	Other	Shut off water-cooled air conditioning units when not needed.	1			
92		Send company vehicles to a car wash that uses a "zero discharge" car wash system or an automated car wash system that recycles and reuses the wash or rinse water.	1			
93		Capture rain water or reuse gray water for irrigation or other non-drinking purposes.	5			
94		Create your own: _____	TBD			
Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
95	Segregate, Reuse, or Recycle	Recycle glass, plastic, and aluminum containers with deposit value; cardboard and dry food boxes; paper (white, colored, and mixed paper as well as junk mail); newspapers, catalogs, and telephone books.	1			
96		Recycle metal and untreated wood, including scrap metal and wood pallets.	1			
97		Establish a company recycling policy that captures all designated recyclables.	2			
98		"Freecycle" - donate or exchange unwanted, usable items to schools, churches, hospitals, etc. through the California Materials Exchange Portal. Visit www.calrecycle.ca.gov/calMAX/ for a list of resources.	2			
99		"Twin" all trash and recycling containers.	5			
100		Compost all landscape trimmings.	5			
101		When shipping items, use shredded paper made on-site from waste paper or reuse packing pellets, bubble wrap, or other packing materials.	2			
102		Send used printer/copier toner cartridges back to the manufacturer or local service for recycling or refilling.	1			
103		Buy recycled or remanufactured printer and copier toner cartridges.	2			

Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
104	Office Paper Reduction	Develop routing lists for bulletins, memos, and trade journals to minimize the number of employees receiving individual copies.	1			
105		If applicable, use electronic timesheets, direct deposits, and/or provide online pay statements to avoid the use of paper statements.	1			
106		Determine the amount of paper your office uses (on average) and establish a paper-use reduction goal.	2			
107		Eliminate fax cover sheets by using stick-on fax labels.	2			
108		Encourage employees to share phone books, repair manuals, etc. instead of ordering books for each employee. Consider putting manuals online.	4			
109		Require that your office's primary method of document distribution (meeting handouts, memos, etc.) be electronic.	1			
110		Order supplies by phone or email instead of using forms.	1			
111		Set computer/printer defaults to print double-sided copies. Require double-sided copying for multi-page documents, when possible.	1			
112		Update/correct mailing lists used to send information to customers to avoid creating undeliverable mail. Consider electronic marketing (e-mail blasts, for example).	1			
113		Use computer software programs that allow faxing directly from computers without printing.	1			
114	Solid Waste Reduction	Use refillable containers in lieu of aerosol cans.	1			
115		Arrange for a free solid waste and recycling audit for your business by calling the City at (619) 691-5122; select #5 from the menu to reach a City Recycling Specialist who can then schedule your assessment.	4			
116		Centralize purchasing within your business to eliminate unnecessary purchases and control what is being bought.	1			
117		Purchase reusable office items, such as refillable pens, mechanical pencils, etc.	1			
118		Install air hand dryers in restrooms and eliminate paper towels for hand drying.	3			
119		Replace disposable beverage cups, plates, and utensils with reusable, washable items. Encourage employees to bring food from home in reusable containers.	3			
120		Eliminate the use of single-serve bottled water for employees, meetings, and in vending machines.	2			

Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 12</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
121	Solid Waste Reduction (Cont)	Require vendors to deliver supplies in returnable or reusable containers.	3			
122		Use optical scanners for tracking inventory to allow for more precise ordering and less waste.	2			
123		Buy products in bulk when possible, using concentrated products (such as cleaning supplies) when appropriate. Portion concentrated products into labeled reusable, bottles.	2			
124		Use reusable metal/nylon coffee filters instead of paper filters. Buy sugar and creamer in bulk rather than individual packets.	1			
125		Buy products made with recycled or reused content.	2			
126		Buy office paper, envelopes, and business cards with recycled content (minimum of 30% post consumer content).	2			
127		Buy mulch, soil amendments, and compost made of plant trimmings or green waste for landscaping.	2			
128		Buy products in returnable, reusable, or recycled content packaging.	2			
129		Buy recycled construction materials when building/remodeling (e.g. insulation made from recycled paper/cotton, plastic lumber for decking, benches and railing, carpeting made with recycled content, etc.)	5			
130		Print messages on product containers encouraging customers to recycle packaging and products.	1			
131		Stock and/or sell products with highest recycled content available.	3			
132		Place a sticker or sign on the paper towel dispenser reminding people to use less paper towels.	1			
133	Other	Create your own: _____	TBD

Strategy #		Pollution Prevention & Storm Water Management <i>Minimum # of Measures Needed for CLEAN Business Recognition = 5</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
134	General	Recycle fryer grease or dispose of it properly.	1			
135		Inspect and service vents and kitchen hoods monthly to prevent pollution from roof top equipment.	1			
136		Scrape grease from trays, grills, and pans into trash to minimize kitchen grease going down sewer drains.	1			
137		Dispose of mop wash water into a mop sink (if available), not into storm drains.	1			
138		Regularly inspect and maintain all grease traps and grease interceptors.	1			
139		Store used grease containers indoors, away from drains.	1			
140		Use a licensed, registered pest control operator for any chemical pesticide applications.	2			
141	Other	Buy produce and supplies from local farmers and companies, respectively.	2			
142		Create your own: _____	TBD			

Strategy #		Energy Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 7</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
143	Kitchen	Use an approved water-conserving dishwasher and pre-rinse spray valve (rated at 1.6 gpm) to save both heating and water costs.	1			
144		Turn off exhaust hoods and hood lights when appliances below them are off. (These must be on when appliances are on).	1			
145	Kitchen (Cont)	Turn off back-up fryers and turn ovens and toasters down or off during slow periods.	1			
146		Reduce dishwasher hot water temperature to lowest temperature allowed by health regulations and consistent with the type of sanitizing system used.	1			
147		Operate batch-type dishwashers only when fully loaded.	1			
148		Check pilot lights for proper adjustment.	1			
149		Institute a start-up and shut-down schedule for major cooking appliances, exhaust hoods, and for smaller appliances such as coffee machines, holding cabinets, steam tables, heat lamps, plate/food warmers, etc.	1			
150		Install an energy/water efficient, connectionless food steamer instead of a conventional model.	5			
151	Refrigeration & Freezer	Install plastic strip curtains on walk-in refrigerator/freezer doors.	2			
152		Ensure that the freezer defrost time clock is set properly to avoid peak energy use periods.	1			
153		Insulate refrigeration cold suction lines.	2			
154		Maintain refrigerators by keeping evaporator coils free of excess frost, dust, and lint.	1			
155		Maintain refrigerator doors by replacing worn gaskets, aligning doors, enabling automatic door closers, and/or replacing damaged strip curtains. Check monthly.	2			
156		Install engineered nozzles and fitting to conserve compressed air.	1			
157	Other	During slower periods, group customers so that lights and heating/cooling units can be turned off in unoccupied areas.	1			
158		Create your own: _____	TBD			

Strategy #		Water Conservation <i>Minimum # of Measures Needed for CLEAN Business Recognition = 2</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
159	Kitchen	Install pre-rinse valves on dishwashing units in restaurants and food service settings (rated at 1.6 gpm or less at 80 psi).	1			
160		Post sign to remind employees to turn off food preparation sink faucets while not in use or install foot triggers on sink faucets.	1			
161		Serve drinking water only upon request.	1			
162		Adjust Icemaker to dispense less if ice is being wasted.	1			
163	Other	Create your own: _____	TBD			
Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 8</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
164	General	Check food deliveries for spoiled or damaged products before accepting the delivery.	1			
165		Provide reusable, washable hats for kitchen staff rather than using disposable, single-use hats.	2			
166		Require produce to be delivered in corrugated (not waxed) cardboard boxes.	2			
167		Store and rotate supplies to minimize loss through spoilage and damage.	1			
168		Buy pickles, mayonnaise, salad dressing, etc. in containers other than non-recyclable plastic buckets. Try them in plastic-lined cardboard or foil pouches.	1			
169		Buy shelf-stable food supplies in bulk.	2			
170		Eliminate paper placemats and paper tray liners; sanitize trays after each use.	2			
171		Offer customers smaller food portions (adjust prices accordingly) to reduce waste.	2			
172		Reduce the number of trash can liners used by changing them only when necessary.	1			
173		Serve carbonated beverages from a beverage gun or dispenser (post mix) rather than by bottle or can.	3			
174		Switch from Styrofoam containers to paper containers made with recycled content.	3			

Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 8</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
175	General (Cont)	Switch from individual condiment packets to DEH-approved cleanable, refillable containers for salt, pepper, sugar, ketchup, and other condiments.	2			
176		Switch to reusable coasters instead of napkins or paper coasters for drinks.	2			
177		Use reusable beverage canisters rather than the bag-in-the-box containers.	2			
178		Use reusable, laminated menus and eliminate paper menus and inserts for specials.	2			
179		Use cloth instead of paper napkins and tablecloths (follow DEH requirements).	3			
180		Use laundry service that provides reusable bags for dirty and clean table linen.	2			
181		When packing take-out food orders, minimize the amount of packaging used (no double-bagging) etc.	1			
182		Collect fruits, vegetables, and food-contaminated paper for composting, if services are available.	1			
183		Donate old uniforms and linens to shelters or nonprofits or otherwise recycle them.	1			
184		Use old tablecloths, cloth napkins, and washcloths as clean-up rags.	1			
185		For casual and fast food restaurants, use reusable utensils, glasses, and dishes for dine-in customers.	2			
186	Other	Create your own: _____	TBD

Contact E-Mail: _____

Strategy #		Pollution Prevention & Storm Water Management <i>Minimum # of Measures Needed for CLEAN Business Recognition = 6</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
187	General	Designate a covered area for washing cars that is connected to the sanitary sewer meeting code requirements.	1			
188		Eliminate open floor drains in the shop area that are connected to storm drains.	1			
189		Use powdered or granular absorbent for routine spill clean up and dispose of used absorbent properly.	1			
190		Have storm drain mats or plugs available in case of spills.	2			
191		Install a closed loop system that recycles brake cleaning wash water.	3			
192		Install containment or berms around outdoor liquid storage and transfer areas to capture spills.	2			
193		Institute policy that liquids are never placed in trash receptacles to avoid leaks that contaminate storm water.	1			
194		Keep dumpster and trash containers stored indoors, if possible. If outdoors, keep dumpsters under cover to eliminate exposure to rain - post reminder signs on dumpsters to keep lids closed.	1			

Strategy #		Pollution Prevention & Storm Water Management <i>Minimum # of Measures Needed for CLEAN Business Recognition = 6</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
195	General (Cont)	Remove all unnecessary hoses to discourage washing down of floors and outside paved areas.	1			
196		Use dry cleaning practices (sweeping or vacuuming) for outdoor cleaning of sidewalks, walls and windows, parking lots, and dumpster areas to avoid contaminating storm drains.	1			
197		Use dry vacuum sanding methods - such as high velocity, low volume ventilated systems or a vacuum unit w/ HEPA filter. When wet sanding is required, apply water w/ a pump spray bottle and use drip pan to catch drips and spills.	2			
198		Use of portable fuel container that complies with the California Air Resources Board performance standards for spill-proofing systems.	1			
199	Other	Create your own: _____	TBD			
Strategy #		Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 4</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
200	General	Use laundry service that provides reusable bags for dirty laundry and clean work uniforms.	3			
201		Use reusable temporary seat, floor and/or hood covers to keep vehicles clean in lieu of using disposable ones.	3			
202		Purchase motor oil in bulk containers (drums).	2			
203		Purchase antifreeze/coolant in bulk containers.	2			
204		Purchase other automotive fluids (transmission oil, gear oil, etc.) in bulk containers.	2			
205		Segregate and reuse or recycle parts materials (metal scraps, etc.).	1			
206		Use old t-shirts, cloth napkins or washcloths as shop rags.	1			

Strategy #	General (Cont)	Solid Waste Reduction <i>Minimum # of Measures Needed for CLEAN Business Recognition = 4</i>	Points Possible	BASELINE Points Earned	IMPROVED Points Earned	Supporting Details
207		Offer 50% Recycled Oil	3			
208		Offer for sale mud flaps made from recycled rubber/plastic.	2			
209		Accept used motor oil from the public as a Certified Used Motor Oil Collection Center. (if your business does not do so already.)	3			
210	Other	Create your own: _____	TBD
